## RIVER VOICES – A SOCIAL INQUIRY

### Free Resource and DVD from Fish & Game New Zealand

- Curriculum-based inquiry learning in social sciences, science and education for sustainability for years 7–10
- **River Voices** promotes values exploration and perspectives
- Teaching and learning experiences, background materials and resources
- Features a thought-provoking DVD of people describing their relationship with the Waimakariri River

“Superb unit of work ... Terrific, rich words that could be used in (the students’) writing to critically examine the issues presented.”

– Paul Adamson, Principal, Ferridge School, Masterton.

“An exciting new resource with great cross-curricula potential!”

– Isabel Browne, Social Sciences Lecturer, University of Auckland.

## EXPERIENCE THE WORLD OF SHAWN THE PRAWN!

Introduce your students to New Zealand’s only prawn park and see science and technology being used to educate and entertain! Your personal guide will take your class through the hatchery and nursery where more than one billion prawns are born every year. Following that you will all get to hand feed the baby prawns before your tour guide shows you how to fish for prawns! There’s also adventure water walkways, a native bush walk where you can feed the wild trout and then you can bring the whole class together in the geothermal foot bath. It’s a great day of fun and education for the whole class - even the teacher!

Ask about our New Activity work sheets for your class!

HUKA FALLS ROAD, TAUPO 07-374 8474 [www.prawnpark.co.nz](http://www.prawnpark.co.nz)
